

Technical Newsletter: Printing on landscape on a 13x19 inches sheet from MAC OS X

March 26th, 2007

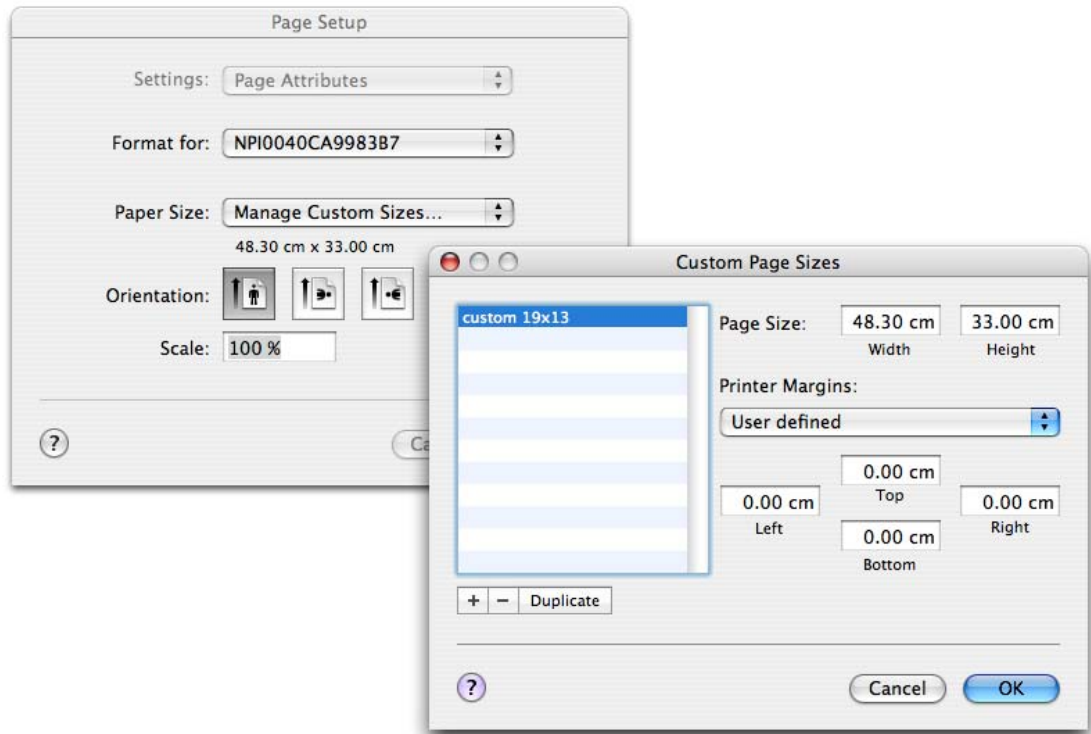

Printing on landscape on a 13x19 inches sheet from MAC OS X is not obvious, since from this operating system we do not have the driver option: rotate 90 degrees.

However, it is easy if you know the steps you have to take. Those are:

Mac OS X, Photoshop CS2 (Idem from Windows XP)

1. **File menu > Document Setup...** (15x10 in and Landscape orientation).
2. Print settings, **File menu > Print with Preview...**:
 - **Printer:** Select the printer (ie. HP Designjet Z3100 24in Photo).
 - **Page Setup...** button:
 - **Format for:** Select the printer (ie. HP Designjet Z3100 24in Photo).
 - **Paper Size:** Select **Manage Custom Sizes...**
 - Click on the '+' icon to create a new custom size (rename it if needed).
 - **Page Size:** Select 19x13 in (48.30 x 33 cm).
 - **Printer Margins:** Select your printer in the drop-down menu or set the margins values to 0.

- Click **OK**.
 - Check your new custom page size is selected in the **Paper Size** drop-down menu.

- **Printer...** button, driver print settings:
 - **Paper Type/Quality > Paper** tab:
 - **Paper Type:** Select the media type that is loaded on the printer.
 - **Quality Options: Standard** and drag the slider to **Quality**.
 - **Source:** Manual Feed.

3. Select **Print**.

Remember that you can also verify these steps by using **HP Image Preview**. To access it:

- i. Go to the printer dialog (printer setup)
- ii. Select your hp designjet Z printer
- iii. On the left bottom, you will find a "PDF" button.
- iv. Press and hold it until the drop-down list appear.
- v. Then select "HP Print Preview"
